

# FASTDECK®

FAST & EASY TO DEPLOY  
EVENT FLOORING

## FASTDECK® 2.0

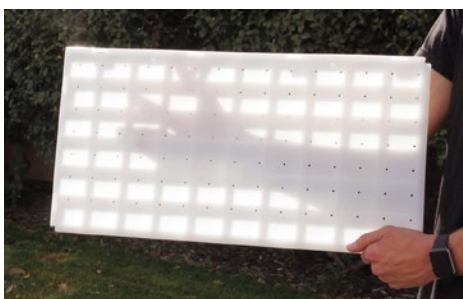

### Save Your Green—Your Grass & Your Money

The newest addition to tent and event flooring systems brings the most cutting edge technology to portable events surfaces. FastDeck 2.0 is engineered to provide a durable temporary floor that helps protect your **natural grass or synthetic turf**. Rest assured that while you are creating the ultimate event venue in your stadium or grassy area, you'll temporarily preserve your grass or prevent damage to your turf.

If you are looking to expand the use of your facility and want to protect your expensive synthetic turf, FastDeck 2.0 is the best solution. Cut assembly and disassembly time, save labor costs, and ensure an **excellent ROI** all while keeping your turf or natural grass protected and healthy.

### Key Benefits

- Translucence
- AirHole Ventilation
- Easy to Deploy
- Durable
- Slip-Resistant Tread
- Easy Compact Storage
- Positive Locking System
- 15 Year Warranty
- Made in the USA

### Your Grass Needs Sunlight

FastDeck 2.0 allows light and air to diffuse through the surface with a proprietary blend of translucent copolymers, keeping natural grass or synthetic turf healthy and green.

### New, Positive Locking System

Panels snap together easily over soft, uneven, or tough terrain. Disassembly is just as easy, simply lift the lightweight panel up and out—no tools required.

### Heavy Traffic, No Problem

With a limited amount of flex at the seams, FastDeck 2.0 creates a rigid, durable surface designed to handle heavy foot traffic, rolling carts, and more.

## FASTDECK® 1.0

### Multipurpose Tent & Event Flooring

FastDeck 1.0, the original tent and event flooring, is engineered tough and as an ideal surface to protect your events from dirt and mud. Perfect for event flooring, portable walkways, military shelters, temporary subfloors, and portable vehicle access paths, FastDeck creates a durable, stable surface in just hours. Keep your event protected and your guests clean and dry.

Thanks to our patented **Socket Lock-It™** locking system, FastDeck is fast and easy to deploy and remove, no tools or training required. Grass, turf, dirt or gravel—the Socket Lock-It remains locked in, even over uneven terrain. FastDeck's slip resistant surface with ventilation ensures easy and fast moisture drainage—rain or shine, your event will go on!

### Key Benefits

- Fast Installation
- Extraordinarily Strong
- AirHole Ventilation
- Slip-Resistant Tread
- Easy Compact Storage
- Patented Socket Lock-It System
- 15 Year Warranty
- Made in the USA

### Supports Heavy Rolling Loads

Protect your original surface with FastDeck, engineered to withstand heavy rolling loads in excess of **80,000 pounds**.

### Socket Lock-It Roll Up Floor

Designed to keep your floor flat and in place. The self-aligning locking system is easy to use, making for easy deployment.

### Dance Floor Subflooring

Put the finishing touches on your important events with the use of both FastDeck and SnapLock Dance Flooring.

# FLOORING APPLICATIONS

Wood Board (OSB), FastDeck 1.0, and FastDeck 2.0 after 10 days on grass\*

## PROTECTION FOR NATURAL GRASS

For long or short term events, FastDeck® 2.0 offers the most advanced natural grass protection available. Our proprietary translucent material blend allows for sunlight, air and water to pass through, keeping your grass nourished and green. Lighter in weight than the

original FastDeck, but just as durable, FastDeck 2.0 offers the same stability, quick deployment and tough surface. The new positive locking system makes for an easier installation and tear-down—getting your grass back to the light of day even faster.

## TRADE SHOW FLOORING

Trade in your hard to keep clean, expensive to rent, trade show carpeting. Add a new, cutting edge look to your booth with the lightweight, easy to maintain FastDeck. Ideal for indoor or outdoor shows and strong enough to handle foot traffic, exhibits, and any product on display (including counter tops!). No tools required, ensuring a quick setup and quick tear down.

## STADIUM FLOORING

Turf or natural stadium grass is an investment. Protect your investment while opening your facility to new event opportunities using FastDeck. Engineered to deliver a durable protective surface, FastDeck is a fast, temporary floor covering system ideal for synthetic turf or natural grass protection.

\*Results may vary depending on climate, weather, and type of grass

## TENT & EVENT FLOORING

FastDeck's durable Socket-Lock-It™ interlocking system allows for fast deployment and pick up while turning any uneven ground into a stable surface perfect for chairs, tables, and walkways. Let FastDeck tackle any challenging surface and feel confident that your shoes

will remain clean and dry while your grass, turf, dirt or gravel are covered. Use FastDeck by itself, or as a subsurface for any other dance or event flooring.

## TEMPORARY WALKWAYS

Keep your high heeled guests from sinking into grass or mud with a temporary FastDeck Walkway. Easily create any size walkway to stabilize uneven surfaces, highlight the path to the event, and protect shoes from dirt and debris.

## PORTABLE COMMERCIAL FLOORING

Whether planned or in a pinch, cover any tough terrain with FastDeck. Dirt, mud, grass, gravel, we've got you covered—create a flat, stable, dry surface made to handle foot traffic, tables, chairs, emergency equipment and high rolling loads.

“Special Event Rentals has been using FastDeck as their “go to” event floor since 2009. With over 30,000 square feet in rental stock, this floor has proven to be durable, cost effective and easy to set up/tear down. It easily stores in 4 x 4 sheets on pallets, making warehousing and transportation a breeze!”
